

Destill with us

Would you like to participate in the production of our Karbun gin? With our technologist, you can cook Karbun gin, experience the entire production process, learn about the spices we use in cooking, and the methods we employ to obtain a purer and more flavorful gin. Cooking is not just a demonstration, but you can actively participate in cutting citrus fruits, weighing and preparing other spices, and various other activities that are required. After cooking, of course, comes everyone's favorite part - tasting... Welcome to the Aura distillery!

The package includes participation in gin cooking, a tour of the distillery and production facility, a plate of Istrian delicacies (prosciutto, cheese, olives, bread), a sweet plate with our jams, a tasting of all our brandies, liqueurs, and gin, and a gift of a 0.75L bottle of Karbun gin for each participant.
